## Welcome to the Massachusetts Open Checkbook

As part of the Commonwealth's commitment to open and transparency government, we have built the Open Checkbook to provide you with easily accessible and understandable information on how your tax dollars are being spent. Co-sponsored by the Executive Office for Administration & Finance, the Office of the Treasurer, and the Office of the Comptroller, this website allows you to search details of state spending, see payroll and pension information, identify vendor payments, and explore tax credits.

[Optimize content for screenreaders.](#)

Open Checkbook currently supports Internet Explorer, Firefox and Safari browsers. Chrome users should use one of these browsers to view the Open Checkbook site. A fix for Chrome compatibility is currently underway
